

**The compilation of a directory for our community has been suggested as a way to increase our neighborhood communication and unity. The information you choose will be shared with our neighbors either via an email or printed format. The desire of this is to enable us to easily reach a neighbor in the event of an emergency or for personal use. It's an opportunity to open the door for Neighbors helping Neighbors and to enhance our Neighborhood Watch. It is NOT to be used for solicitation! The request for business information is so that we can provide a list of businesses for which our neighbors work so that people can choose to do business with their neighbors easily. (For instance, would you rather use a veterinarian from the neighborhood, a realtor from the neighborhood, a baby sitter, a dog sitter, a banker etc. ?) The vision is to have a directory of services provided by our neighbors at the end of the directory as a service to our community.**
